

# STYLECREST®

## DURA GRIP II™ STEPS THE ECONOMASTER

Part #	Riser	Overall Height	Landing Height	Width Depth	Standard Rail #
STY99-0183	8"	32"	24"	36"	STY99-0232

### High Performance Safety Surface

Our Dura-Grip II™ fiberglass step has a textured, slip resistant stone-like surface that gives better footing in all weather conditions. The receding riser gives the step 12" of surface for the foot and gives the unit a contemporary look.

### Complementary Color

Our color is a combination of several different crushed aggregates. The secret combination of these elements produces a color that complements almost any siding or skirting on the market today.

### Faster Rail Mounts

Mounting rails is a snap. Just align the rail posts with the pre-drilled holes (that have steel sleeves so no drilling is required), and tighten the bolt. Takes 5 minutes, tops!

### Standard Railing System

Install Standard railings when you need economical choice. Style Crest rails meet or exceed most federal, state, and local code requirements.

## Vinyl Skirting

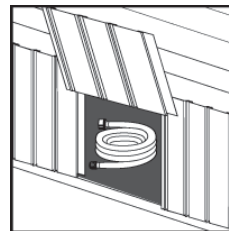

Self-ventilating (1) no need for special vented panels in many locations or; (2) add as many specially designed center vent panels as required.

Designed to resist gusty winds, less chance of blowout.

Virtually maintenance free - won't dent or scratch. It's weatherproof, rustproof & never needs painting. An occasional washing easily keeps it looking brand new.

Easy access - anywhere around the home's skirting. Panels easily slip out and may be reinstalled by either sliding or snapping the panels together.

**Available in White, Tan, Grey, Clay or Sand!**
